Background 课程背景

由食品安全预防控制联盟(FSPCA)推出的动物食品和饲料生产企业预防性控制措施培训课程是得到美国FDA认可的标准培训课程。按照美国FSMA法规的要求,食品企业建立实施食品安全计划的人员、开展第三方合规性认证的监管人员必须参加由通过了FSPCA教师资格的讲师授课的培训课程并获得合格证书。

为帮助中国输美企业更好地了解该配套法规,欧陆分析推出了"动物食品预防性控制措施"培训。由通过FSPCA认可的培训讲师(Lead Instructor) Mr. Gary Smith进行全英文的授课。参加并顺利完成培训的人员可以拿到美国FDA认可的食品安全预防控制联盟(FSPCA)培训证书。

US Food and Drug Administration (FDA) published Food Safety Modernization Act (FSMA) final rule for Current Good Manufacturing Practice (cGMP), Hazard Analysis and Risk-based Preventive Controls for Human Food (21 CFR, Part 117) in September 2015. The rule requires "Preventive Controls Qualified Individual" to establish Food Safety Plan. Companies export to the U.S. should meet this rule before September 19, 2017

"Preventive Controls for Animal Food Rule" Training Course, published by FSPCA, has been accepted by FDA. According to the requirements of the FSMA regulations, staff who establish the implementation of food safety plan in food enterprise and and third party certification auditors must attend training courses taught by teachers who have got the teaching qualification from FSPCA and get the certificate.

Eurofins now releases Training Course of Preventive Controls for Animal Food to help US exported food manufacturing plants to better understand this rule. The English version training course will be provided by Mr. Gary Smith, who is Lead Instructor recognized by FSPCA. The participators who successfully complete the training course will get the US FDA recognized training certificate from FSPCA.
