

REGULATIONS

COMMISSION REGULATION (EU) 2017/1164

of 22 June 2017

amending Annexes II and III to Regulation (EC) No 396/2005 of the European Parliament and of the Council as regards maximum residue levels for acrinathrin, metalaxyl and thiabendazole in or on certain products

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EC) No 396/2005 of the European Parliament and of the Council of 23 February 2005 on maximum residue levels of pesticides in or on food and feed of plant and animal origin and amending Council Directive 91/414/EEC⁽¹⁾, and in particular Article 14(1)(a) and Article 49(2) thereof,

Whereas:

- (1) For acrinathrin, maximum residue levels (MRLs) were set in Part A of Annex III to Regulation (EC) No 396/2005. For metalaxyl and thiabendazole MRLs were set in Annex II and Part B of Annex III to that Regulation.
- (2) For acrinathrin, the European Food Safety Authority, hereinafter 'the Authority', submitted a reasoned opinion on the review of the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005⁽²⁾. It proposed to change the residue definition. It identified concerning the MRLs for bananas, melons, peppers, watermelons, peaches and apricots a risk for consumers. It is therefore appropriate to lower these MRLs. For other products, it recommended raising or keeping the existing MRLs. It concluded that concerning the MRLs for lamb's lettuce, escarole, cress, rocket, red mustard, soya beans and all animal origin products, some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation. The Authority concluded that regardless of the data gaps identified the critical good agriculture practice was not compliant with the approval restrictions for acrinathrin for pome fruits, apricots, cherries, peaches, plums, strawberries, bananas, garlic, onions, tomatoes, peppers, aubergines, okra (lady's fingers), cucurbits with edible peel, gherkins, courgettes, melons, pumpkins, watermelons, lettuce, beans (fresh, with pods) and soya beans and that further consideration by risk managers was required. The MRLs for these products should be set at the specific limit of determination.
- (3) For metalaxyl, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005⁽³⁾. It proposed to change the residue definition and recommended lowering the MRLs for head cabbage, Chinese cabbage, kohlrabi, spinach, beet leaves (chard), beans (fresh, with and without pods), peas (fresh, with and without pods), asparagus, leek, beans (dry), peas (dry), lupins (dry), linseed, poppy seed, rape seed, mustard seed, gold of pleasure seed, maize, swine meat and fat, bovine meat and fat, sheep meat and fat, goat meat and fat, poultry meat and fat, milk and birds eggs. It concluded that concerning the MRLs for grapefruits, oranges, lemons, limes, mandarins, apples, pears, table grapes, wine grapes, strawberries, onions, peppers, soya beans, swine liver and kidney, bovine liver and kidney, sheep liver and kidney and poultry liver some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation. The Authority concluded that concerning the MRLs for quinces, medlars, loquat, avocados, gherkins, cotton seed, barley, buckwheat, millet, oats, rice, rye, sorghum, wheat, spices from seeds and sugar beet (root), no information was

⁽¹⁾ OJ L 70, 16.3.2005, p. 1.

⁽²⁾ European Food Safety Authority; Reasoned opinion on the review of the existing maximum residue levels (MRLs) for acrinathrin according to Article 12 of Regulation (EC) No 396/2005. EFSA Journal 2015;13(7):4203.

⁽³⁾ European Food Safety Authority; Reasoned opinion on combined review of the existing maximum residue levels (MRLs) for the active substances metalaxyl and metalaxyl-M. EFSA Journal 2015;13(4):4076.

available and that further consideration by risk managers was required. The MRLs for these products should be set at the specific limit of determination. The MRLs for spices from fruits should be set as temporary MRLs. These MRLs will be reviewed; the review will take into account the information available within four years from the publication of this Regulation.

- (4) For thiabendazole, the Authority submitted a reasoned opinion on the existing MRLs in accordance with Article 12(1) of Regulation (EC) No 396/2005 (¹). It identified concerning the MRLs for mangoes and cultivated fungi a risk for consumers. It is therefore appropriate to lower these MRLs. The Authority proposed to change the residue definition for milk and other animal origin products. It recommended lowering the MRLs for apples, pears, potatoes, witloof/Belgian endives, swine muscle and fat and poultry muscle and fat. For other products it recommended raising or keeping the existing MRLs. It concluded that concerning the MRLs for grapefruits, oranges, lemons, limes, mandarins, quinces, medlars, loquat, kumquats, avocados, bananas, papayas, potatoes, witloof/Belgian endives and all animal origin products some information was not available and that further consideration by risk managers was required. As there is no risk for consumers, the MRLs for those products should be set in Annex II to Regulation (EC) No 396/2005 at the existing level or the level identified by the Authority. These MRLs will be reviewed; the review will take into account the information available within two years from the publication of this Regulation.
- (5) As regards products on which the use of the plant protection product concerned is not authorised, and for which no import tolerances or Codex maximum residue limits (CXLs) exist, MRLs should be set at the specific limit of determination or the default MRL should apply, as provided for in Article 18(1)(b) of Regulation (EC) No 396/2005.
- (6) The Commission consulted the European Union reference laboratories for residues of pesticides as regards the need to adapt certain limits of determination. As regards several substances, those laboratories concluded that for certain commodities technical development requires the setting of specific limits of determination.
- (7) Based on the reasoned opinions of the Authority and taking into account the factors relevant to the matter under consideration, the appropriate modifications to the MRLs fulfil the requirements of Article 14(2) of Regulation (EC) No 396/2005.
- (8) Through the World Trade Organisation, the trading partners of the Union were consulted on the new MRLs and their comments have been taken into account.
- (9) Regulation (EC) No 396/2005 should therefore be amended accordingly.
- (10) In order to allow for the normal marketing, processing and consumption of products, this Regulation should provide for a transitional arrangement for products which have been produced before the modification of the MRLs and for which information shows that a high level of consumer protection is maintained. Because a risk to consumers cannot be excluded at the current MRLs, the value of 0,01 mg/kg for acrinathrin in and on bananas, melons, peppers, watermelons, peaches and apricots and the value of 0,01 mg/kg for thiabendazole in and on mangoes and cultivated fungi should apply to all products from the date of application of this Regulation.
- (11) A reasonable period should be allowed to elapse before the modified MRLs become applicable in order to permit Member States, third countries and food business operators to prepare themselves to meet the new requirements which will result from the modification of the MRLs.
- (12) The measures provided for in this Regulation are in accordance with the opinion of the Standing Committee on Plants, Animals, Food and Feed,

(¹) European Food Safety Authority; Reasoned opinion on the revision of the review of the existing maximum residue levels (MRLs) for thiabendazole. EFSA Journal 2016;14(6):4516.

HAS ADOPTED THIS REGULATION:

Article 1

Annexes II and III to Regulation (EC) No 396/2005 are amended in accordance with the Annex to this Regulation.

Article 2

Regulation (EC) No 396/2005 as it stood before being amended by this Regulation shall continue to apply to products which were produced before 21 January 2018:

- (1) as regards the active substance metalaxyl in and on all products;
- (2) as regards the active substance acrinathrin in and all products except bananas, melons, peppers, watermelons, peaches and apricots;
- (3) as regards the active substance thiabendazole in and on all products except mangoes and cultivated fungi.

Article 3

This Regulation shall enter into force on the twentieth day following that of its publication in the *Official Journal of the European Union*.

It shall apply from 21 January 2018.

This Regulation shall be binding in its entirety and directly applicable in all Member States.

Done at Brussels, 22 June 2017.

For the Commission

The President

Jean-Claude JUNCKER

ANNEX

Annexes II and III to Regulation (EC) No 396/2005 are amended as follows:

(1) Annex II is amended as follows:

(a) the columns for metalaxyl and thiabendazole are replaced by the following:

'Pesticide residues and maximum residue levels (mg/kg)

Code number	Groups and examples of individual products to which the MRLs apply ^(a)	Metalaxy1 including other mixtures of constituent isomers including metalaxy1-M (sum of isomers) (R)	Thiabendazole (R)

(**) Pesticide-code combination for which the MRL as set in Annex III Part B applies.

(^a) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

Metalexyl including other mixtures of constituent isomers including metalexyl-M (sum of isomers) (R)

(R) = The residue definition differs for the following combinations pesticide-code number:

Metalexyl — code 100000, except 1040000: Sum of metalexyl (sum of isomers) and its metabolites containing the 2,6-dimethylaniline moiety, expressed as metalexyl

(+) The European Food Safety Authority identified some information on residue trials on metalexyl and metalexyl-M as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

0110030 Lemons

(+) The European Food Safety Authority identified some information on residue trials on metalexyl as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

0110040 Limes

0110050 Mandarins

(+) The European Food Safety Authority identified some information on residue trials on metalexyl and metalexyl-M as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

0130010 Apples

0130020 Pears

(+) The European Food Safety Authority identified some information on residue trials on metalexyl as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

0151010 Table grapes

0151020 Wine grapes

0220020 Onions

0231020 Sweet peppers/bell peppers**0233010 Melons****0233030 Watermelons**

- (+) The European Food Safety Authority identified some information on residue trials on metalaxyl and metalaxyl-M as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

0241000 (a) flowering brassica**0241010 Broccoli****0241020 Cauliflowers****0241990 Others**

- (+) The European Food Safety Authority identified some information on residue trials on metalaxyl-M as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

0256000 (f) herbs and edible flowers**0256010 Chervil****0256020 Chives****0256030 Celery leaves****0256040 Parsley****0256050 Sage****0256060 Rosemary****0256070 Thyme****0256080 Basil and edible flowers****0256090 Laurel/bay leave****0256100 Tarragon****0256990 Others**

- (+) The European Food Safety Authority identified some information on residue trials on metalaxyl as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

0270050 Globe artichokes

- (+) The European Food Safety Authority identified some information on residue trials on metalaxyl and metalaxyl-M as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

0401070 Soyabeans

- (+) The European Food Safety Authority identified some information on residue trials on metalaxyl-M and analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

0640000 Cocoa beans**0700000 HOPS**

- (+) Temporary MRL valid until 1 July 2021. After this date the MRL will be 0,05 (*) mg/kg, unless modified by a Regulation in light of new available information.

0820000 Fruit spices**0820010 Allspice/pimento****0820020 Sichuan pepper****0820030 Caraway****0820040 Cardamom**

0820050 Juniper berry

0820060 Peppercorn (black, green and white)

0820070 Vanilla

0820080 Tamarind

0820990 Others

- (+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

0840040 Horseradish

- (+) The European Food Safety Authority identified some information on analytical methods as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

(*) Indicates lower limit of analytical determination

(^a) For the complete list of products of plant and animal origin to which MRLs apply, reference should be made to Annex I.

(F) = Fat soluble

Acrinathrin and its enantiomer (F)

(+) The European Food Safety Authority identified some information on residue trials and metabolism as unavailable. When re-viewing the MRL, the Commission will take into account the information referred to in the first sentence, if it is submitted by 1 July 2019, or, if that information is not submitted by that date, the lack of it.

- 0251010 Lamb's lettuces/corn salads**
- 0251030 Escaroles/broad-leaved endives**
- 0251040 Cresses and other sprouts and shoots**
- 0251060 Roman rocket/rucola**
- 0251070 Red mustards**

(+) The applicable maximum residue level for horseradish (*Armoracia rusticana*) in the spice group (code 0840040) is the one set for horseradish (*Armoracia rusticana*) in the Vegetables category, root and tuber vegetables group (code 0213040) taking into account changes in the levels by processing (drying) according to Art. 20 (1) of Regulation (EC) No 396/2005.

- 0840040 Horseradish'**

(2) In Annex III, the columns for acrinathrin, metalaxyl and thiabendazole are deleted.
